

“Taking Flight” Interactive Exhibition Reveal

At start of exhibition...

top layer- seed paper, bottom- monotypes

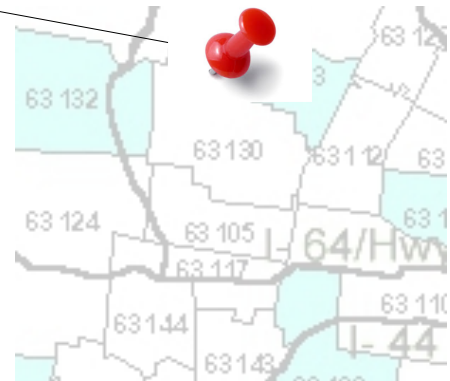

Map of region

Detail of reveal process

Audience removes pin and pockets the seed-embedded paper. Removed pin is set on map where garden is planned.

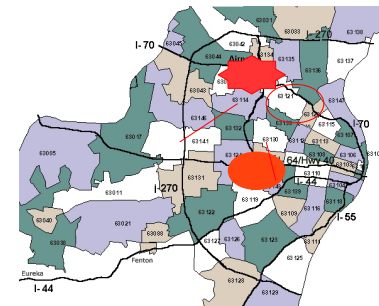

Time-lapse recording would capture the action of the audience revealing a colorful patchwork while also mapping where the seeds are intended for in the region.

At the end of the exhibition..

All seed paper distributed, prints remain

Map filling up with pins from seed paper
